Health Guarantee:

We love and care for our dogs and it is our goal to provide new pet owners with a great experience and a time of joy bringing home a new puppy. If ever we are questioning the health of the puppy we will not sell it until it is cleared by a veterinarian and/or it is clear that the puppy is back to normal health and thriving. If this is a puppy that a deposit has already been made on we will inform the buyer of the health concern and we will do our best to get the puppy back to 100%. If there is still concerns for the health of the puppy after we have tried everything reasonable to restore the puppy's health, we will give the buyer the opportunity to receive a refund of their deposit. We want to only provide happy and healthy puppies! In case a puppy slips by our watch the following is our health guarantee:

-Within 72 hours of receiving your new puppy, if your puppy does not clear a puppy wellness check from a veterinarian we will allow you to return the puppy to us for a full refund minus \$100. Please include a document from the veterinarian verifying the puppy's illness to receive the refund.

-Within 1 year of the date of birth of the puppy if he/she develops a genetic defect which would greatly reduce quality or quantity of life, and that is verified by a veterinarian to be hereditary, we will refund you half the price of the puppy and let you keep the puppy.

This transaction is final and will only be compromised conforming to our health guarantee contract.
